Matriculation	04/2015 - 04/2017

## Skills

Python • Django • HTML • SQL • CSS • JavaScript • React • MongoDB • PL/SQL

## Experience

SecureKloud	chennai,india
Full Stack Developer Intern	
During my internship as a Full Stack Developer at <b>SecureKloud Technologies</b> , I was responsible for the full-stack development of a web application. I designed and built both the front-end and back-end architecture to create a secure and scalable solution. This experience provided me with hands-on experience in the complete software development lifecycle, from initial design and development to final deployment and ongoing maintenance	

## Projects

SecureKloud Intranet Site
Intranet Site
• Built a full-stack intranet application that streamlined internal communication and document sharing, leading to a measurable increase in team collaboration. The project demonstrated expertise in React.js, Node.js, and MongoDB in a real-world enterprise environment.
Lung Disease Detection
Lung Disease Detection (Machine Learning Project)
• Created an image classification model that successfully identified lung diseases from medical images with high precision. This project showcased skills in machine learning and deep learning, with the potential to significantly improve the diagnostic process for healthcare professionals.

## Key Achievements

☆ FINALIST IN NATIONAL LEVEL ACCELATHON 2.0.	☆ MEMBER OF INSTITUTION INNOVATION COUNCIL
